

Ana Maria Cardenas

PhD Student,
Media Arts &
Technology,
UC Santa Barbara

When

May 22, 2023
5:00 p.m.

Where

Zoom

About the Speaker

Ana Maria Cardenas is a Ph.D. student in the Media Arts and Technology Program in the Expressive Computation Lab. She received her M.S. in Information at the University of Michigan, her B.S. in Computer Science, and a B.A. in Design at Universidad de Los Andes in Colombia. She has worked with the Museum of Memory in Colombia to create AR exhibitions for narratives of the armed conflict in Colombia. She has also worked with companies like Snap and Adobe, exploring AR's use for social connection, storytelling, and performance.

The Center for Black Studies Research Presents Fostering Human Connections with Augmented Reality

About the Presentation

"In this presentation, I will cover some of my research in the field of Human-Computer interaction. I will present and discuss various projects investigating the use of Augmented Reality in different settings, such as co-located interactions between friends and family, storytelling, and memorialization. These projects collectively advance my research interest in understanding how we can leverage emerging technologies, such as Augmented Reality, in a responsible way to create scenarios that foster human interpersonal connection."

-Ana Cardenas Gasca

This event will be recorded.
