

The UCSB Center for Black Studies Research presents:

What is the Future of Appropriate Technology?

**TUESDAY, MAY 17,
2016**

2:00P.M.

**UCEN
STATE STREET ROOM**

Boureima Kabre is the Founder and Director of Burkina Energy and Appropriate Technology (BETA), a locally run social enterprise promoting sustainable energy access in rural communities of Burkina Faso, West Africa. BETA has successfully installed over 4000 solar panels and lamps in rural areas of Burkina Faso. Mr. Kabre will discuss his efforts to launch local production of renewable energy products as a means for greater economic and gender empowerment in rural communities.

Co-Sponsors: The Global Environmental Justice Project, The College of Engineering, The MESA Program, Division of Social Sciences
