➤ 7-8 PM PST

June 30

COVID

In California:

An African American Nurse
Practitioner's Perspective

ABOUT

Nurse Pattye Anderson FNP is board certified as a Family Nurse Practitioner residing in California with decades of family health experience and a unique perspective into racial disparities in healthcare. Her research focuses on addressing cumulative impacts of chemical exposures on vulnerable infant outcomes. Nurse Anderson is an endurance athlete marathoner who promotes teen cancer awareness for Positive Pounders, the community service division of www.SlenderImage.org.

Pattye Anderson

Family Nurse Practitioner

KEY TOPICS

Nurse Pattye Anderson will bring her unique perspective as an African American Clinician. She will discuss:

- Disproportionate differences involving risk and outcomes for People of Color
- The lack and/or low numbers of healthcare professionals
- What the communities are attempting to do while living through COVID
- Telemedicine
- Resources
