From President Biden’s inaugural address to the rising interest in ancestral and indigenous healing practices in popular culture, healing has become a buzzword in the United States. In this public lecture, Dr. Della V. Mosley will provide a deep dive discussion that goes beyond the buzz and into the definitions, pathways, and possibilities for healing and for being a “healer.” With a focus on both personal and collective wellness, attendees will explore the necessity of approaching healing from an intersectional, critical, and practical approach. Dr. Della will support attendees in uncovering their relationship to healing and reflecting on possibilities related to taking on the role of being a healer.

Join us as we welcome Dr. Della V. Mosely for their in person talk, *Healing Healers Heal: A Definition, Expansion, and Insistence for Our Wellness!* Dr. Della V. Mosley (they/them or she/her) is a healer, scholar-activist, and spacemaker who uses Black feminist approaches to facilitate holistic wellness for people of the global majority, particularly Black people and all queer and transgender People of Color.
