

Engineering to Advocacy

A Nontraditional Academic Journey

Darryl N. Williams
Senior Vice President of
Science and Education
Franklin Institute

Monday, October 28, 2019

12:00 noon

**UCSB Center for Black
Studies Research
4603 South Hall**

Light refreshments will be provided

There is no “one way” to fully utilize all of the skills one gains by pursuing academics and careers in science and engineering. Dr. Darryl N. Williams is, indeed, a true example of this. Come and learn how his journey started off rather traditional and then pivoted to a nontraditional pathway, all with a clear focus on building capacity to make the practices of science and engineering accessible to all.
